Please ensure this tracking sheet is completed as a group, as it will be used to monitor your individual participation within the

Team Members	Role/ Responsibilty	Email
Ange Muhawenimana	Did Part 4, the Part 3 derivation and Update 1,	a.muhawenim@alustudent.com
Annie Pierre Bwiza	Did Part 1 (Galton heights) and did Update 2, team tasksheet	a.bwiza1@alustudent.com
Ghislaine Ineza	Did Part 2 (IMDb reviews), did Update 3 and setup the Repo and wrote the README	g.ineza@alustudent.com

Task Allocation and Tracker

	Task Allocated	Assigned Member	Deadline	Completion Status (Not Started/In Progress/Completed/ Did not participate)	Reviewed by Team? (Yes/No)	Comments
	Worked on Part 1 using the Galton heights data. Cleaned the heights, coded EM from scratch, filled in the tracking table for the first 3 iterations, worked out the posterior for the test height and explained why we split on the global mean. Also did Update 2 in the manual calculations and wrote the Part 1 section of the notebook, filled team tasksheet and submitted the work.	Annie	22/10/2026	Completed	Yes	well done

Worked on Part 2 using the IMDb reviews. Picked the positive and negative keywords, coded Bayes in plain Python, made the results tables and explained why each keyword was chosen. Also did Update 3 of manual calculations by hand, wrote the Part 2 section of the notebook, set up the GitHub repo and worked on the README, and booked the presentation slot.	Ghislaine	22/10/2026	Completed	Yes	well done
Did the chain-rule derivation for dJ/dm and dJ/db and worked out Update 1 by hand. Wrote the gradient descent code for Part 4, checked the gradient with SciPy, made the plots and wrote that part of the notebook.	Ange	22/10/2026	Completed	Yes	well done
Described how m, b and the error changed over the three updates, put everyone's handwritten pages into one PDF, explained their part of codes to others and rehearsed the presentation together.	Ange, Annie, Ghislaine	22/10/2026	Completed	Yes	well done

Meeting Attendance Log

Meeting Date	Agenda	Facilitator	Attendees	Key Discussion Points	Next Steps

18/10/2026	Kick-off: read the brief, agree on Part 1 data (parents vs children or children vs basketball players) and Part 2 keywords	Annie	Annie, Ange, Ghislaine	Datasets chosen; task split agreed; keyword shortlist	Download datasets; create GitHub repo; each member starts their task
21/10/2026	Review of Parts 1–2 code: EM output, tracking table, Bayes tables	Ange	Annie, Ange, Ghislaine	Checked the tracking table values, the global-mean-split explanation and the keyword justifications	Fix issues found; start the handwritten Part 3 calculations
22/10/2026	Part 3–4 check: handwritten updates vs code output, plots	Ghislaine	Annie, Ange, Ghislaine	Compared each member's update with the printed values; discussed the trend in m, b and the error.	Combine the handwritten pages into one PDF; finish the notebook and README
25/10/2026	Presentation rehearsal	Annie, Ange, Ghislaine	Annie, Ange, Ghislaine	Timed the 15 minutes; confirmed each member speaks on every part; practised Q&A	Book the slot and add all members to the invite
